Global Organic Fertilizer Market Report Description:

The Global Organic Fertilizer Market size is expected to experience substantial growth between 2025 and 2033, primarily driven by the increasing issue of soil degradation, which underscores the urgent need for sustainable soil management practices. Estimated at around USD 8.6 billion in 2025, the market is projected to reach approximately USD 22.0 billion by 2033, registering a robust compound annual growth rate (CAGR) of 12.8% during the forecast period.
